

# SINGH JATINDER

## Web Developer & Designer

### Profile

Web developer and designer with 4+ years of experience creating responsive websites and custom applications for businesses in Melbourne. Brings proven client-facing administrative experience, enabling clear communication, accurate understanding of business needs, and delivery of tailored digital solutions. Recognised for enhancing online presence and streamlining processes through innovative, user-friendly designs and applications.

### Work Experience

#### Freelance Web Developer & Designer

Present Melbourne, Australia

Designed and developed responsive, dynamic websites for many Melbourne-based businesses and educational institutions, emphasizing user-friendly interfaces, SEO optimization, and digital marketing integration to enhance engagement and visibility.

➤ **Yarramovers (Moving Company)** - Built website layout using **HTML, CSS, Bootstrap** and Photoshop, integrating a PHP backend for local **SEO** features and inquiry forms. Managed social media ads to generate additional business leads (<https://www.yarramovers.com.au>).

➤ **International StudentTips (Blog)** - Created a blog website using the EJS view engine and a **Node.js** and **MongoDB** backend. (<https://www.internationalstudenttips.com.au>)

➤ **Dalavoro (Workwear Supplier)** - Created an online store with a CMS for product catalogue and user navigation, along with a PHP and MySQL backend for dynamic inventory management. (<https://dalavoro.com.au/>)

➤ **Educational Platforms** (e.g., State Institute of Training - <https://www.sit.vic.edu.au/> Brighton Institute of Technology <https://www.bit.edu.au/>) : Developed responsive, professional sites with inbuilt SEO for multiple providers; used JavaScript for interactive elements and HTML, CSS, **Photoshop** to clear responsive and clean UI

#### Web Developer and Designer

2021 - 2023 Motoweb Solutions

As a Web Developer and Designer, I crafted innovative designs and developed robust code for websites and web applications, ensuring high-quality digital solutions. I conducted comprehensive error-checking, testing, and validation implementation to deliver seamless functionality and optimal performance, while enhancing User Interface (UI) and User Experience (UX) through iterative improvements that elevated the design, usability, and engagement of digital platforms.
